---

Play solo game modes, or play against a CPU or another player There are also various challenge puzzles to test you.. Overall, this is a great puzzle game that provides a nice change of pace\formula.. I can't really say much for the challenge mode or the multiplayer modes because I haven't unlocked them yet, but I am really looking forward to seeing how this game progresses.

Don't get me wrong, the main concept is the same; move the cursor and swap different color blocks until the form a row or column of 3 or more of the same shape, but the main difference of this game is that the board is pretty much always filled up, and depending on what mode you're playing, you only have a limited number of moves or limited amount of time to beat the high score.. I bought Swap Blocks off of Steam thinking it was going to be a game like that Boy was I wrong.. Doesn't really make any sense to me, but ultimately I'm not too concerned about it.

## swap blocks

I bought Swap Blocks off of Steam thinking it was going to be a game like that Boy was I wrong.. My only complaint about this game so far is that for whatever reason my Rock Candy Xbox 360 controller will not work with this game, but yet my Logitech Xbox controller will.. Also, the soundtrack is surprisingly good for a puzzle game I'd highly recommend giving it a listen. [Nice Text Editor For Mac](#)

column of 3 or more of the same shape, but the main difference of this game is that the board is pretty much always filled up, and depending on what mode you're playing, you only have a limited number of moves or limited amount of time to beat the high score.. Doesn't really make any sense to me, but ultimately I'm not too concerned about it.. With this in mind, you pretty much have to be a lot more strategic in this game, figuring out which moves will provide the most combos, figuring out which blocks would be the best to use power ups on, trying to get those bomb blocks to the bottom of the screen; overall I'd say this is a far more challenging experience.. ly/32391NkAbout This GameIn Swap Blocks you will match 3 or more similar blocks on a game board by swapping blocks.. With this in mind, you pretty much have to be a lot more strategic in this game, figuring out which moves will provide the most combos, figuring out which blocks would be the best to use power ups on, trying to get those bomb blocks to the bottom of the screen; overall I'd say this is a far more challenging experience. e828bfe731 [Da Vinci Code](#)
